Progress of Units: Upto first two years there is no profit after that firm started earn profit, now on an averagethey earns 400/per working day and incentiveon festivals

Challenges to the firm

1. Limitation of working area
2. Delay in payments from icds
3. Huge interest to be paid for the loans rolling the business as the payments from ICDS is delaying

Suggestion

1. Product diversification is the best solution for over coming financial problem
2. Finding other market which fetch spot payments or relatively speedy payments from cutomer
