Know about the resistance against Covid by Kudumbashree CDSs

Kudumbashree has been implementing various activities in connection with the fight against covid-19 pandemic. The Community Development Societies (CDS is the panchayath level federation of NHGs) of Kudumbashree provide leadership to all these activities. CDS of Kudumbashree plays a key role in formulating and implementing the needed activities locally. CDS is responsible for the convergence with the respective Local Self Government Institutions and other departments. The excellent leadership of the CDS ensures that the covid-19 related activities reach our Neighbo groups (NHGs). CDS is pivotal in bringing changes in the society and locality through these activities.

We had asked the district teams to compile the covid related activities initiated by CDSs of their districts. We have started receiving reports about the activities of CDSs from the districts. Till date, reports of around 350 CDSs are received and they are uploaded in this page: http://www.kudumbashree.org/pages/870.

Hope you all will read about how a fraternity of women are finding solutions to one of the greatest challenge faced by the society. Our CDSs are framing and implementing many activities in the local level. The details about the excellent work done by Kudumbashree's CDSs are available in the above mentioned link. Appreciations to all CDSs who always come forward to work hard even during crisis situations. Hoping that our CDSs will continue this excellence in work in the future as well.
