Kudumbashree implemented many programs based on Government directions. Policies, support and financial assistance of the Government helped the system to grow and scale up its work. The team was able to demonstrate good results through implementation of many programs under the leadership of the CDS committees. Strong convergence with the Local Self Government Institutions also was a crucial factor. The best achievements in each sector are published through a poster and activity of publishing these posters (on the website of Kudumbashree) was started on 7 September 2020. 18 posters published until now are available in this link- http://www.kudumbashree.org/pages/880. We are aiming at publishing 100 posters.

Know achievements of our last 4 years through these posters

We are publishing a series of posters, for concisely depicting the progress and results attained through the various activities of Kudumbashree. These posters are published on a daily basis. They contain the total result achieved in the last 4 years. These posters are being prepared for increasing the confidence of our team, to communicate developments news with the public and for getting inputs to formulate future policies based on the growth during the last four years. In addition, it also aims at motivating the present CDS committee and team who provided leadership for the field level activities of Kudumbashree. The present committee worked for the last three years. It’s an effort to compile results of their hard work, summed up at state level.
Our Kudumbashree team was able to attain greater achievements as a result of the hard work, dedication and determination of many people over a long period of time. We hope that, through these posters, we will be able to present those achievements before the public. Hope you all will have a look at the upcoming posters through the link given above or through the home page of Kudumbashree. I welcome you all to regularly see our posters and send us feedbacks.
