Various activities are being implemented through Kudumbashree to prevent covid-19 and to make all the families aware that everyone should do their part in the fight against covid-19 pandemic. Along with this, Kudumbashree is also engaged in extending various help and services to the public in convergence with the respective Local Self Government Institutions. Yesterday, the Honourable Chief Minister of Kerala had mentioned about the various activities being implemented through Kudumbashree, during the press meet. The Chief Minster had mentioned about the Kudumbashree Janakeeya Hotels, the Chain Call awareness programme being implemented through Kudumbashree, the awareness campaign proposed to be implemented from next week onwards through social organisations, the awareness classes being extended to Kudumbashree members under the leadership of Indian Medical Association etc. The video of this press meet is given as today's post. Let me remind you all that, the efforts and involvement of each and everyone is inevitable in fighting back this pandemic. Kudumbashree network should take up more such activities to create more awareness among public.
