The monthly progress chart of Annual Action Plan (AAP) regarding the activities for 2020-21 financial year is ready now. Kudumbashree plans to implement around 500 activities in 239 subjects from 17 sectors during this financial year. These aims might be one of the most excessive and diverse ones in the project implementation under a Mission in Kerala. Considering the rate in which these projects are implemented, considering the variety of the intervening social sectors, by taking into account of the challenges faced and the convergences made with other departments, this would turn to be a Massive Action Plan.

Usually, the Action Plan for the upcoming financial year is prepared when the share for Kudumbashree is announced in the budget during the month of February. As per budget 2020-21, Rs 200 crore was allocated for Kudumbashree. Also, Rs 50 crores was earmarked for the Special Livelihood Programme, Rs 250 crores for projects under Rebuild Kerala and Rs 195.28 crores as part of National Rural Livelihoods Mission (NRLM) is also earmarked during February 2020. The Centrally sponsored Programmes such as PMAY, NULM, DDUGKY and SVEP have Rs 700 crores, Rs 62.50 crores, Rs 100 crores and Rs 16.11 crores as budget provision, respectively.

Though we started the activity of preparing the monthly plan of Action based on the approved Annual Action Plan after the Budget, we could not prepare a month wise plan of action due to lock down. Though we could not execute those formulated programmes during the lockdown...
period, we did engage in various activities such as mask-sanitiser production, Managing of community kitchens, setting up of Janakeeya Hotel, CM Helping Hand Loan scheme of 2000 cr, KSFE-Laptop loan etc as part of fighting back against covid-19 pandemic. Now, we are ready with monthly targets and action plan based on the Annual Action Plan. Plan is prepared for 6 months from July to December and we have started implementing the same.

The details on the aims of Kudumbashree on each project is available in this link: http://www.kudumbashree.org/pages/173... . The monthly progress of implementation of these goals will also be marked. Monthly reviews would be conducted to check the progress. Implementation details of each program at district level will be available through monitoring tables. The progress of each programme could be understood by anyone as it’s uploaded transparently in web site. Availability of data, plan progress and implementation details (both physical and financial) in the public domain is our speciality. I welcome you all to know more about it by browsing the above given link.
