Happy New Year to all of you

Yet another year of hope has arrived. Let me wish all the readers of ‘Making an Impact’ Article Series, a very Happy and prosperous New Year. Let this year be filled with prosperity, happiness and growth.

We started writing this ‘Making an Impact’ Article Series on 19 July 2019 for informing ‘development communication’ regarding various activities of Kudumbashree. It’s also a documentation of the activities and policy level decisions. I am happy that we were able to continue this series through 157 articles. Let me thank each one of you for acceptance you all have given for this article series. This is an article series where the new policies and programmes that are being implemented for the last three years are introduced.
In the last three years, as a team we were able to build a strong base of developmental activities. 2020 is the year in which we are supposed to give the best to Kerala based on this strong foundation. Each one of us are committed to enter into more activities, responsibilities and to bring better results in 2020 compiling the activities of the last three years. I hope our team may be able to effectively implement the same and let the new year be a gentle reminder to this. Wishing a happy and prosperous 2020 to everyone.

Happy New Year to each one of you!
