As the lock down is ongoing and many of the districts are in red zone due to the spread of covid-19 pandemic, we have started the second phase activities for the BUDS school students. In this new phase, the plan is to give more focus on the development of the creative skills of the students. The second phase is from 23 April to 3 May.

The students would be given different challenges everyday and the parents are instructed to send the videos or photos of their performances.
These photos/videos would be shared through various groups which would in turn give happiness and encouragement to the children and their parents. The activities from 23rd April to 28th April included folk songs, film songs, poetry recitation, drawing, paper bag and pen production, and handicrafts making. These are over and we have 5 more days of performance (before May 4th). The programs received an excellent feedback from all the district and there was good participation by students. The challenge for the next 5 days is given below.

Mimicry challenge is given for 29 April, Tik Tok for 30 April, fancy dress/instrument music for 1 May, mappila songs for 2 May and challenge for planting saplings is given for 3 May. We hope more participation in the upcoming days as well. Once again, appreciations to all the teachers of BUDS institutions and other staff who are trying to encourage the innate talents of the specially abled children and make them engaged in activities even during the time of lock down.
